Internships

Interns at Casa Forma are fully integrated in our work and teams and get the chance to participate in the development and realisation process of our projects.

But: We take interns only for a minimum of four months, as our experience is that only after two month the collaboration starts to be mutually fruitful and fun. We can therefore only take a limited number of interns per year.

Requirements:

You would ideally be a great team worker, driven by a sense for design and quality, fluent in AutoCAD, SketchUp, Adobe PS/ID and have a genuine interest in luxury design. Please have a look at our website and assure yourself that Casa Forma is the right address for an internship for you.

Your application:

Please send us your CV and examples of your projects via email as a PDF or a link to your works. Applications we have to download (e.g. via dropbox) we cannot consider. Your application email should not exceed 4 MB.

It is not important to show as many projects as possible, but the ones that could be interesting for us.

Please do not send applications via post/mail. Important: We generally do not answer mass applications.

Please apply in time and be patient with us. We try to answer applications as fast as possible but at least once a month.
